How to use **TÖITÄSUOMESTA** service

TöitäSuomesta-service aims to help to match job seekers with the employers mainly in the rural areas in Finland. Service is run by three organizations that represent rural areas in Finland (MTK, ProAgria and Suomen Kylät).

[To the service in English](#)
(Browse and apply open positions, create a profile)

TÖITÄSUOMESTA

Employers can advertise their open positions and job seekers can apply and create job seeker profile free of charge on the site.

Job seekers can apply for positions via this service by registering and creating a job seeker profile for themselves. You can also apply directly with the contact information given by the employers. Registration is not then necessary. You can browse open job opportunities without registration.

If you create a job seeker profile (by ticking option “I'm looking for jobs” when registering and filling in your information), please notice that any user registered as an employer can browse your profile in the service. You can remove or change your profile any time you wish.

Information about work permits and working in Finland, you will find [here](#). The most common collective agreement (wages, working hours etc.) which applies to the open positions, you can find [here](#).

Many season work opportunities during summer include accommodation at the farm. Ask additional information from the employer (facilities, cost of the accommodation).
